I know it is being worked on via Mark. Go ahead and report to Tito what you know on status. Who is included in the agreement? Osha? CSB?

Ragan and Susan:

On Monday during our OEM Sr. Staff meeting, Larry asked me to check with you (R6) about the status of a "Site Control/Access Agreement" to the West site that is/was being worked on. Are you familiar with this ? He indicated that Mark Hayes knows about this. Can you get me a status and, if such agreement has been completed, provide me a copy ?

Thanks,

Gilberto "Tito" Irizarry, Director
Program Operations & Coordination Division Office of Emergency Management U.S. Environmental Protection Agency
